=

04 OUTPUT

Company Recognized Problem Solver

The first engineering leader who builds the team and still ships.

PRODUCTION LINE · 2012 TO 2026 AND BEYOND

Corporate Finance Developer

Boeing Corporate Finance

2012

Smaller Companies, Bigger Change

Moved to a small loan company and gained confidence in core software development, then pivoted to a startup and learned to execute end to end.

2016

Level Up Through Consulting

Took a Senior Consultant role and established an architectural role with wider technical leadership responsibilities.

2020

Leadership, Execution, Delivery

Consistently tapped by senior leadership to execute on keystone accounts, and expanded leadership impact by managing multiple teams.

2023

Potential Next Steps

Continue integrating AI into the technical workflow, directing work toward predictable outcomes, and growing in a software architecture role.

2026 and beyond

Engineering leadership that aligns architecture, delivery, and business outcomes
