=

04 OUTPUT

Company Recognized Problem Solver

Leverages technical leadership to direct strategy collaboratively and solve problems.

PRODUCTION LINE · 2012 TO 2026 AND BEYOND

2012 — Corporate Finance Developer

Boeing Corporate Finance

2016 — Smaller Companies, Bigger Change

Moved to a small loan company and gained confidence in core software development, then pivoted to a startup and learned to execute end to end.

2020 — Level Up Through Consulting

Took a Senior Consultant role and established an architectural role with wider technical leadership responsibilities.

2023 — Leadership, Execution, Delivery

Consistently tapped by senior leadership to execute on keystone accounts, and expanded leadership impact by leading across multiple teams.

2026 and beyond — Potential Next Steps

Continue integrating AI into the technical workflow, directing work toward predictable outcomes, and growing in engineering leadership and architecture.

Engineering leadership that aligns architecture, delivery, and business outcomes
